

This Copywriter Software is very easy to use.

Make sure you extract everything out of the zip file the copywriter .exe and the include folder.

Then just double click to open the copywriter .exe program.

\*If you get any alerts from your firewall or anti-virus programs, it is a "false positive". Go ahead and enable this copywriter program.

Once the copywriter program is opened, just select from the dropdown menu for the swipes topics you want to use, and then click on generate.

Each time you click on generate, it will generate a random swipe copy. You can simply copy the swipe text and use it as you like.

Thank you!
